**KAISER
PERMANENTE®**

**San Francisco
Medical Center**

Welcome to Our Program

The Kaiser Permanente San Francisco Medical Center is a cutting-edge tertiary care facility located in the heart of the city. We are one of the cardiac referral centers for all of Kaiser Permanente Northern California, as well as a specialty referral center for many of Kaiser Permanente's surrounding facilities. We are also a center of excellence for pulmonary arterial hypertension and transgender services.

Our medical center includes a 247-bed hospital and six medical office buildings. We provide pharmacy services to over 220,000 members.

CLINICAL SKILLS

What We Offer

Residents will be trained in a setting with established Ambulatory Care and Acute Care pharmacy programs and have the opportunity to practice in an urban facility with a long-standing Medical Residency training program.

Our Ambulatory Care Pharmacists initiate and adjust medications under a collaborative practice agreement and are responsible for direct patient care management.

Our Clinical Inpatient Pharmacists are active members of multidisciplinary care teams and adjust medications under protocol.

Practice Management

- Community Benefit Activities
- Continuing Medical Education
- Leadership Development
- Longitudinal Research Project
- Pharmacy Week Activities
- Student Preceptorship
- Teaching Certificate (optional)
