# What Is Medical Communications?

---

- Medical communications professionals
  - Blend science, research, writing, and art in order to educate healthcare professionals about up-to-date treatment options and help improve patient care
- Medical communications companies
  - Collaborate with pharmaceutical/biotech companies to facilitate the development and dissemination of disease state and treatment information to healthcare professionals and patients

*We will provide **reliability and integrity** in delivering our services by assisting **clinical experts and patient advocates** in developing communications that **improve care and patient outcomes.***

# Our Mission

# What Is Medical Communications?

---

- Medical communications companies
  - Oftentimes are driven by pharmacists, PhDs, and physicians
  - Activities include a broad range of print, electronic, online, and onsite educational initiatives
  - Projects follow data across all phases of a product lifecycle, from study reports to first abstract/poster presentations to completed clinical manuscripts
  - May be accredited providers of continuing education or unaccredited joint sponsors of CE

*Pharmacists have the appropriate scientific and clinical foundation for working in this arena*

# MedVal & PharmaWrite: Core Activities

- Publication Planning
  - Market surveillance
  - Abstracts and posters
  - Clinical trial papers/manuscripts
  - Case reports
  - Reviews
  - Monographs and formulary kits
  - Journal supplements
  - Letters
- Advocacy Development
  - Advisory boards/roundtables
  - Consultant meetings
  - Satellite meetings
  - Expert investigator websites
  - Newsletters
- Special Event Planning
  - Investigator meetings
  - Consultant meetings
  - Resident/Fellow training seminars
  - International congresses
- Regulatory Writing
  - New drug applications
  - Investigator brochures
  - Clinical study reports
  - Clinical study protocols
- Other
  - Drug information materials
  - Decision tree analyses
  - Comparison guides

# Experience in a Wide Array of Therapeutic Areas

---

- Endocrinology
- Epilepsy
- Geriatrics
- Hematology
- Immunology
- Infectious disease
- Men's health
- Nephrology
- Oncology
- Pain
- Parkinson's disease
- Rare/orphan diseases
- Schizophrenia
- Women's health

# MedVal and PharmaWrite Clients

- SPIRIT: Standard Protocol Items: Recommendations for Interventional Trials
- TIPPA: The International Publication Planning Association
- WAME: World Association of Medical Editors
- WMA: World Medical Association Declaration of Helsinki (2008)
- Individual journal requirements

# Overview of the Fellowship Program

---

- MedVal Scientific Information Services and PharmaWrite Medical Communications are offering a 1-year, postdoctoral fellowship
  - Begins July 1, 2022
  - Affiliated with the Philadelphia College of Pharmacy (PCP) at the University of the Sciences in Philadelphia, PA
    - Offers optional teaching experience as an Adjunct Faculty
- The fellow will divide his or her time between MedVal, PharmaWrite, and PCP

# Fellowship Program Goals

---

- Primary goal
  - To provide a foundation for a career in medical communications through training and exposure to various aspects of the industry
  - Educational and promotional programs/activities
- Academic component
  - Adjunct Clinical Instructor
  - Develop teaching skills through formal educational instruction of PharmD students

# Academic Component

## Philadelphia College of Pharmacy/USciences in Philadelphia

---

- Opportunity to participate in optional teaching component
- Academic opportunities
  - Teach in small group courses of interest
  - Complete teaching and learning focused self-directed learning activities
  - Serve as preceptor for P4 students
  - Utilize and understand methods to teach effectively
  - Create and deliver a CE program for pharmacists
  - Participate in orientation sessions with other fellows and residents
  - Learn how to develop a teaching philosophy
  - Develop a dynamic teaching portfolio

# Candidate Requirements and Application Deadline

---

- Fellow candidate qualifications:
  - PharmD
  - Must become licensed in NJ by the end of the second quarter
  - Possess good interpersonal and communication skills
- Application materials and deadline
  - Applications will be reviewed on a first-come first-serve rolling basis
  - Phone interviews will be offered upon receiving:
    - Letter of intent
    - Updated curriculum vitae
    - One writing sample (i.e. research abstract, poster, presentation, article, drug monograph)
  - Official transcript
  - 3 letters of reference
  - Additional writing sample(s)

**DEADLINE: December 1, 2021**

# Benefits

---

- Comprehensive benefits and health care package
  - Competitive annual stipend
  - Medical, dental, vision, and life insurance package
- Certification of completion of fellowship
- Optional teaching component

# Examples of Our Work...

# Extensive Experience in Publishing Message-Driven...

- Primary papers
- Secondary papers
- Reviews
- Abstracts and posters
- Case reports
- Short communications
- Letters to the editor
- Journal supplements
- Symposium reports
- Newsletters
- In-house publications
- Poster books
- Monographs

# High-Tier Publications

# Is This Fellowship for You?

---

- Do you have a strong interest in writing?
- Do you have an interest in doing something nontraditional?
- Do you have an interest in advancing patient care by delivering high quality information to HCPs?
- Do you have an interest in teaching?

***Consider Becoming a  
Medical Communications Fellow!***

# Thank you on behalf of MedVal, PharmaWrite, and PCP

We look forward to meeting with you!
