

CVS Health

CVS Health is proud to offer a variety of PGY-1 Residency and Fellowship programs. We will be hosting our annual **Fellowship** Information Session on September 30, 2021 and would love to connect with your student pharmacists! We are particularly interested in connecting with the Class of 2022 as they will be applying in the very near future into PhORCAS; the Class of 2023 if they are considering residency, and can learn how rotation selection can help with Residency or Fellowship matching, and undergrads as well so that they can begin to explore this opportunity if they are interested down the line.

Again this year, our Residency and Fellowship Information Sessions will take place virtually and include live streamed broadcasts featuring our Residency Program Directors and the Experiential Learning and Residency Programs Team. In addition to live streamed content, attendees will also be invited to chat 1-on-1 with our current CVS Health Residents and Fellows!

We would be grateful if you could please distribute the information below (and in the attachment above – whichever is easier!) to your Class of 2021 PharmD students. My team and I look forward to connecting those interested students with potential residency opportunities! **Our first event is coming up soon – September 30th!!**

**CURIOUS ABOUT OUR
POST-GRADUATE TRAINING PROGRAMS?**

Join us to for a 30-minute virtual information session, followed by live Q&A, to hear from Program Directors along with current and past Residents & Fellows. Seats are limited, register today!

 **Fellowship**
