

Postgraduate Year One

# Pharmacy Residency

SERIOUS MEDICINE. EXTRAORDINARY CARE.™

## Postgraduate Year One

# Pharmacy Residency

Since 1974, Nebraska Medicine continues the rich tradition and commitment of advancing our profession through the training and education of pharmacy residents as future leaders. Through excellence and innovation, we strive to evolve our program and provide the best training environment possible. We are genuinely vested in the success of each resident and our unique family atmosphere contributes to the professional and personal development of all residents. The goal of the 12-month program is to equip each resident with the skills needed to enter a postgraduate year two residency or a practice position in an acute care setting.

**Residents participate in all aspects of our comprehensive pharmacy services including:**

- Antimicrobial, anticoagulation and diabetes stewardship
- Code, trauma and rapid response teams
- Education and precepting of pharmacy students
- Education of patients and health care professionals
- Experience with clinical pathways, protocols and core measures
- Multidisciplinary medical team rounding
- Pharmacokinetic services
- Resident On-call program

## Rotations

Infectious Diseases  
Kidney/Pancreas Transplant  
Toxicology

***Longitudinal Experiences***

Leadership Development Series  
Pharmacy Grand Rounds  
Research  
Resident On-call Program  
Patient Care Staffing Experience  
Teaching Certificate Program

## Practice Area

Nebraska Medicine is the clinical partner of the University of Nebraska Medical Center (UNMC), which includes the colleges of Medicine, Pharmacy, Nursing, Dentistry and Allied Health. UNMC, with an enrollment of more than 4,000 students, is the only public academic health science center in Nebraska and is internationally recognized as a leader in patient care, research and education. The not-for-profit hospital is known for excellence and innovation in medicine.

Nebraska Medicine is an 809 bed health network. It is a Comprehensive Level 1 Trauma Center with more than 63,000 emergency room visits per year. As the primary teaching hospital for UNMC, Nebraska Medical Center is a respected leader in solid organ transplantation, heart and vascular, blood and marrow transplantation, cancer and neurosciences.

Nebraska Medicine brings together the expertise of private practice medicine with the strengths of an academic health center. The many areas of specialization give each resident a variety of experiences, from the critically ill neonate to the cancer patient undergoing blood and marrow transplantation. By combining state-of-the-art research, education and exceptional patient care, we offer the best of both worlds.

The working relationship between Nebraska Medicine and the UNMC College of Pharmacy provides a solid foundation for a quality pharmacy residency program. The program provides an excellent mixture of clinical experiences, one-on-one interaction with faculty and preceptors, and the flexibility to modify the program to meet each resident's needs. In addition, the residency provides many opportunities for educating and precepting students.

## Application Requirements

- Applicants shall be graduates of an Accreditation Council for Pharmacy Education (ACPE) accredited doctor of pharmacy degree program
- Applicants must be licensed or eligible for licensure as a pharmacist in the state of Nebraska
- Licensure must be obtained by July 31

## About Omaha

In 2019, U.S. News and World Report ranked Omaha, Nebraska, among the top 15 Best Affordable Places to Live. Forbes (2017) listed Omaha as one of America's 20 Best Cities for Young Professionals and as one of the Best Places for Business and Careers. Forbes (2016) listed Omaha in their top 10 cities to raise a family.

The metro area community of nearly 1 million is home to national events such as the NCAA Men's College World Series, basketball tournaments and U.S. Olympic swim trials. Omaha's Henry Doorly Zoo and the historic Old Market Entertainment District are nationally-renown attractions. The Bemis Center for Contemporary Arts, the Joslyn Art Museum and a wide variety of shops offer area residents an exciting cultural experience.
