

Association Management Residencies - Nov 17, 2021 (8pm ET)

Have you considered a non-traditional pharmacy role where you could have an impact on a national scale? Association management residents/fellows work on large-scale projects, education development, membership, and more! NCPA is collaborating with APhA, ASHP, PQA, AMCP, PTCB, NACDS, AACP, and ASCP to provide an overview of association management roles followed by a Q&A. Attendees will receive handouts with information on applications and available positions for this year's cohort of residents and fellows. [Register here.](#)
